MESA CHAIR

H 42" x W 20.5" x D 20.5"

\$2800 As shown, Cognac Leather

Inspired by the gesture of an obelisk, the Mesa chair was created as a reaction to the club chair by playing with the proportions. Shown in nude un-dyed vegetable tanned leather, it features a traditional saddle stitch construction. The ergonomic design provides excellent support. Hammered bronze rivets add contrast while keeping the leather in place. All edges are slicked and finished with wax. Crafted from the highest quality North American hides typically used for saddle making. We recommend a product called "bick 5" by bickmore to clean and care for your leather products.

Extensive line of leather options available in the shop

Customizations welcome; Please inquire

Please allow 8-10 weeks for delivery
